

The Scholarship Rate is a great way to continually motivate students to help them earn a reduced monthly cost for their music lessons. At the end of the page is a graph detailing lesson fees, with and without the scholarship.

Requirements to receive the Scholarship Rate:

- ❖ Each student must fulfill their practice requirement 5 days a week, for the length of their normal lesson. I.E. 45 minute lesson, 45 minute practice. The teacher will set a required time of practice if a change is needed.
- ❖ A scholarship is a reward for diligent practice prior to the following lesson. When practice times are recorded, there needs to be indication of progress, hard work, and/or improvement. If practice is recorded, but no progress made, there will be a review of the student's scholarship availability.
- ❖ During lessons, students must be teachable, be willing to accept challenges, display attentiveness, and good character.
- ❖ Practice times must be noted, and parents must confirm their child's practice by signing in the space provided on the practice chart. Older students are accountable for their own practice. Not writing in the students practice time, may affect the Scholarship Rate.
- ❖ Students may begin taking lessons at the scholarship rate. The second month's fees will be determined by the first month's practice. To receive the Scholarship Rate, your musician must maintain the scholarship requirements on a monthly basis.
- ❖ Should a student not fulfill his or her practice requirement for 2 weeks of that month, they will not receive the discount on the next month's fees. The student will move up to the Standard Rate, see *Policies & Rates form*. A student may return to the Scholarship level the following month, only by fulfilling their practice requirement the month before. Note: A total of 4 weeks of unfulfilled practice, during a semester, will disqualify a student from the scholarship level for the remainder of the year.
- ❖ Students may squeeze their practice time into fewer days, they fulfill the total time requested.
- ❖ Students or parents may request a reduced practice time for a particularly busy week.
- ❖ When a student is out of town for two days or less, the student still needs to fulfill their practice during that week. Practice exceptions are considered on an individual basis, determined by the teacher. Longer vacations may be given a reduction in the requirement.

Lesson Fees

Time:	Standard Rate:	Scholarship Rate:
60 Minute Lessons:	\$95 each month	\$85 each month
45 Minute Lessons:	\$85 each month	\$75 each month
30 Minute Lessons	\$60 each month	\$50 each month
